

KINDER LESSON PLAN

EXPLORING SPACE

MONDAY

Planets
Poem

TUESDAY

Name The
Planets

WEDNESDAY

Counting
Stars

THURSDAY

Coloring
Cubs

FRIDAY

Space
Walk

NOTES

NAME: _____

PLANETS POEM

**There are eight planets in the Milky Way
I am learning all about them today
Mercury is number one
It is the closest planet to the Sun
Venus is number two
It is the hottest planet, who knew!
Earth is number three
It is home for you and me
Mars is number four
Named after the Roman god of war
Jupiter is number five
Its orbit keeps us alive
Saturn is number six
Its rings have ice and rock in its mix
Uranus is number seven
Its name also means sky or heaven
Neptune is number eight
Its windiest winds blow great
There are eight planets in the Milky Way
And I learned them all hooray!**
